Family Tree

Research Workbook

The family of _____

Compiled by _____

Started on _____

What's inside

Pedigree Chart	Four generations of direct ancestors on one page, with birth, marriage and death dates and places. Print one per branch.
Family Group Sheet	One couple and all of their children. Print one for every couple on your pedigree chart.
Research Log	Track where you've looked and what you found, so you never search the same record twice.

Tips for recording

- Write dates as day, month, year: 12 Mar 1890. It avoids 3/12 vs 12/3 confusion.
- Use maiden names for women (the surname they were born with).
- Write places from smallest to largest: town, county, state, country.
- Mark estimates clearly: abt. 1850, bef. 1900, aft. 1875, or a range 1850-1855.
- Write SURNAMES IN CAPITALS so they stand out: Mary Ellen O'BRIEN.
- Use pencil for anything you haven't confirmed with a record.
- Numbering: you are #1. Your father is 2x your number, your mother 2x + 1.
  So #2's parents are #4 and #5; #7's parents are #14 and #15.
- Chart #2+ : each #8-#15 on chart 1 becomes #1 on a new chart.

Pedigree Chart

Chart #_____ • Person #1 on this chart is the same person as #_____ on chart #_____

Even numbers = fathers, odd = mothers
Father of #n is 2n, mother is 2n + 1
